### Developing Minds

T 2002  
Developing Minds is a comprehensive multimedia library that offers the tools and strategies to help parents and teachers better understand and manage each child's learning profile. The materials are based on the pioneering educational framework of Dr. Mel Levine. The series addresses differences in attention, memory, language, neuromotor function, social cognition, temporal-sequential ordering, spatial ordering and higher order cognition, and shows how strengths and weaknesses in these areas can affect children's success in writing, reading, math, communicating, understanding, organization, feelings and behavior. Includes 22 programs

Staff Development; Child Development; Learning

### Attention

038859,VH Video Tape 1/2" (VHS)  
45 min T 2002  
This program offers practical strategies that parents and teachers can use to help all children improve their attention. The video shows children and early adolescents struggling with one or more control systems of attention: mental energy, processing and production, and it emphasizes that all children have different capacities for attention.

Child Development; Staff Development; Learning

### Behavioral Complications

038856,VH Video Tape 1/2" (VHS)  
50 min T 2002  
This video shows children and early adolescents in classroom and home situations struggling to behave in acceptable ways and explores behavioral problems that may stem from a student's poor performance in school. Learn practical strategies that can help children manage inappropriate behaviors such as acting out, anger and aggression and difficulties with social skills - all behaviors that can interfere with academic and social success.

Child Development; Staff Development; Learning; Social skills; Behavior

### Feelings and Motivation

038854,VH Video Tape 1/2" (VHS)  
50 min T 2002  
This video looks at how students feel about their performance in school and shows children and early adolescents struggling with negative feelings in classroom and home situations. It explores school situations that may generate negative reactions - such as humiliation, low self-esteem, loss of motivation, helplessness, anxiety and withdrawal - and

offers practical strategies that teachers and parents can use to help children deal with their negative feelings related to performance.

Child Development; Staff Development; Learning; Self-esteem

### General Strategies for Parents

038848,VH Video Tape 1/2" (VHS)  
25 min T 2002  
This video shows children and early adolescents struggling with learning problems and explores a systematic process for understanding and managing a child's learning strengths and weaknesses with a focus on ways in which parents can help children be more successful at learning. Gain insights into five areas of Management by Profile: demystification, accommodations, interventions at the breakdown points, strengthening of strengths and protection from humiliation. This video stresses, in particular, ways in which parents can help their children with learning difficulties.

Child Development; Staff Development; Learning

### General Strategies for Teachers

038849,VH Video Tape 1/2" (VHS)  
25 min T 2002  
This video shows children and early adolescents struggling with learning problems and explores a systematic process for understanding and managing a child's learning strengths and weaknesses with a focus on ways in which teachers can help their students be more successful at learning. Gain insights into five areas of Management by Profile: demystification, accommodations, interventions at the breakdown points, strengthening of strengths and protection from humiliation. This video stresses, in particular, ways in which teachers can help their students with learning difficulties.

Child Development; Staff Development; Learning

### Getting Organized/Work Habits

038852,VH Video Tape 1/2" (VHS)  
50 min T 2002  
This video shows children and early adolescents in classroom and home situations struggling to organize their work and activities and explores becoming better organized and having good work habits. It focuses on common organizational problems that many students face - including difficulty planning tasks and managing time and materials - and offers practical strategies that teachers and parents can use to help children be better organized. Viewers will gain insights into these challenges and how they relate to breakdowns in the neurodevelopmental

functions of attention, memory, spatial ordering, temporal-sequential ordering and higher order cognition.

Child Development; Staff Development; Learning; Classroom Management; Organization

### Getting Thoughts on Paper

038853,VH Video Tape 1/2" (VHS)  
50 min T 2002  
This video shows children and early adolescents in classroom and home situations struggling to write and explores the process of writing, common problems that many students face and practical strategies that teachers and parents can use to help children become better writers. Viewers will gain insights into these challenges and how they relate to breakdowns in the neurodevelopmental functions of attention, neuromotor function, language, memory and higher order cognition.

Child Development; Staff Development; Learning; Writing skills

### Higher Order Cognition

038866,VH Video Tape 1/2" (VHS)  
45 min T 2002  
Video shows children and early adolescents struggling in one or more areas of higher order cognition: concept formation, critical thinking, creativity and brainstorming, reasoning and problem solving, rule use and mental representation, and offers practical strategies for teachers and parents.

Child Development; Staff Development; Learning

### Introduction for Parents

038846,VH Video Tape 1/2" (VHS)  
15 min T 2002  
Introduces parents to the components of the complete library and should be previewed to become familiar with the entire collection.

Child Development; Staff Development; Learning

### Introduction for Teachers

038847,VH Video Tape 1/2" (VHS)  
15 min T 2002  
Introduces teachers to the components of the complete library and should be previewed to become familiar with the entire collection.

Child Development; Staff Development; Learning

### Language

038861,VH Video Tape 1/2" (VHS)  
45 min T 2002  
This video explores the process of acquiring language abilities - the key to successful communication - as well as practical strategies that parents and teachers can use to help students develop these abilities. It

## Titles added 151 to 180 days ago

shows children and early adolescents in classroom settings struggling with one or more language levels: phonological processing, morphological sense, semantic understanding and use, sentence comprehension and formulation and discourse.

Child Development; Staff Development; Learning; Language arts

### Mastering the Challenge of Reading

038851,VH Video Tape 1/2" (VHS)  
50 min T 2002

This video shows children and early adolescents in classroom and home situations struggling with one or more reading subskills: decoding, comprehension and reading retention. This video also explores the reading process, common reading problems that many students face and practical strategies that teachers and parents can use to help children become better readers. Viewers will gain insights into these challenges and how they relate to breakdowns in such key areas of brain function as attention, memory and language.

Child Development; Staff Development; Learning

### Memory

038865,VH Video Tape 1/2" (VHS)  
45 min T 2002

Viewers learn practical strategies to help children improve their memory: short-term memory, active working memory and long-term memory.

Child Development; Staff Development; Learning

### Neuromotor Function

038863,VH Video Tape 1/2" (VHS)  
45 min T 2002

This video is about neuromotor functions, or the connections between the brain and various muscle groups, and how they affect motor performance. Highlighted throughout are many ways that poor neuromotor function can impede performance as well as practical strategies that teachers and parents can use to help children strengthen their neuromotor abilities. The video introduces the four areas of function - gross, fine, graphomotor and musical - then focuses on children struggling with gross motor and graphomotor functions.

Child Development; Staff Development; Learning; Automobiles—Motors—Exhaust gas—Environmental aspects

### Social Cognition

038860,VH Video Tape 1/2" (VHS)  
45 min T 2002

This program offers practical strategies that parents and teachers can use to help children become more socially successful. The video shows

children and early adolescents struggling with aspects of social cognition: verbal pragmatics and social behaviors.

Child Development; Staff Development; Learning; Social skills

### Spatial Ordering

038864,VH Video Tape 1/2" (VHS)  
45 min T 2002

Video offers practical strategies that parents and teachers can use to help children strengthen their spatial ordering, including awareness, perception, memory, output, materials management and higher spatial thinking.

Child Development; Staff Development; Learning

### Student Output: Producing, Performing and Communicating

038858,VH Video Tape 1/2" (VHS)  
50 min T 2002

This video is about student output, or how students express themselves in speaking, writing and physical activities. It shows children and early adolescents struggling to express themselves in classroom and home situations and focuses on common problems that many students face when asked to produce work, communicate their thoughts or perform in physical activities.

Child Development; Staff Development; Learning

### A Student Profile

038850,VH Video Tape 1/2" (VHS)  
25 min T 2002

This video shows children and early adolescents struggling with learning problems and explores a systematic process for understanding and managing learning strengths and weaknesses. Viewers will see parents, educators and students collaborate to gather information and develop and educational plan to address differences in learning. Viewers will also follow one student through the process of specifying and understanding his learning difficulties and discovering specific strategies to help address them.

Child Development; Staff Development; Learning

### Temporal-Sequential Ordering

038862,VH Video Tape 1/2" (VHS)  
45 min T 2002

This video shows children and early adolescents struggling in one or more areas of temporal-sequential ordering: sequential awareness, perception, memory, output, time management and higher sequential thinking, and explores temporal-sequential ordering. Offers practical strategies for parents and teachers.

Child Development; Staff Development; Learning

### Thinking with Numbers

038855,VH Video Tape 1/2" (VHS)  
50 min T 2002

This video shows children and early adolescents in classroom and home situations both struggling and succeeding with mathematics assignments. It explores the common problems that many students face when learning mathematics, as well as practical strategies that teachers and parents can use to help children think with numbers.

Child Development; Staff Development; Learning; Mathematics

### Understanding

038857,VH Video Tape 1/2" (VHS)  
50 min T 2002

This video shows children and early adolescents in classroom and home situations struggling to understand ideas and process information. It surveys common modes of understanding - including how students learn through language, interpret nonverbal and spatial information and form concepts and portray ideas in their minds. Video also offers practical strategies that teachers and parents can use to help children understand better.

Child Development; Staff Development; Learning; Information organization

### Video Library Overview

038845,VH Video Tape 1/2" (VHS)  
15 min T 2002

Introduces users to the components of the complete library and should be previewed to become familiar with the entire collection.

Child Development; Staff Development; Learning

### Rocks

020395,DV DVD  
27 min IJ 2000 100% Educational Videos

Travel deep inside the Earth to discover how rocks and minerals are formed, to learn about the three types of rock and to understand how rocks change over time through weathering and erosion. See the entire rock cycle and learn how geologists determine the properties of rocks. Learn about the structure and composition of minerals.
