 PISA 2008 Film Ideas, Inc. [distributor
 Narrator, Bruce Miles.
Green matters: what in the world is going on? Series - Most everyone realizes the environmental and economic cost for the dependence on fossil fuels for energy, foreign or domestic. So it makes sense to embrace other technologies that are cost efficient and sustainable, yet reduce their negative impact on the planet. Governments, industries, and people worldwide are finding new ways to reduce their energy dependency and environmental impact by investing in sustainable energy alternatives.

Biofuels

D0375,ER Electronic Resource
 PISA 2008 Film Ideas, Inc. [distributor
 Narrator, Bruce Miles.
Green matters: what in the world is going on? Series - What do animal dung in Israel and leftover cooking oils in North America have in common? Both are being used as bio fuels for powering industrial equipment and motor vehicles. Combine this with efforts to process coconut oil from Uganda and soy from Argentina and you have the hopeful beginnings for fossil fuel independence.

Endangered species

D0377,ER Electronic Resource
 PISA 2008 Film Ideas, Inc. [distributor
 Narrator, Bruce Miles.
Green matters: what in the world is going on? Series - From Tibet to Argentina and many places in-between, this encompassing look at endangered species offers insight into the plight and hope for many of our planets animals. Along the way we'll search for species now believed extinct, such as the Yangtze Dolphin of China, to more promising efforts in Hungary for repopulating the rare white rhino.

Louis Joliet & Jacques Marquette

D0384,ER Electronic Resource
 PISA 2002 Film Ideas, Inc. [distributor
 Narrator, Rich Garcia.
Famous explorers Series - Describes the journeys of the seventeenth-century French explorers who were the first Europeans to locate and chart the Mississippi River. Louis Joliet, a French Canadian fur trader from Quebec, and Jacques Marquette, a Jesuit priest from France, would together become two of the most courageous French explorers in North American history. During their 1673 expedition, these two men carefully mapped and journaled the unknown regions of the Upper Mississippi River Valley.

The lower Mississippi River

D0385,ER Electronic Resource
 PISA 2001 Film Ideas, Inc. [distributor
 Narrator, Bunnie Strassner.
Rivers of North America Series - The lower Mississippi River Valley begins near the confluence of the Ohio River, which joins the Mississippi at the southern tip of Illinois. From there, the river travels 700 miles south before it reaches the Gulf of Mexico. Home to one of the most complex ecosystems in the world, the lower Mississippi River Valley has sustained a remarkable environment for a variety of fish, wildlife, and plants. Each year during the spring and fall millions of birds migrate north and south along the river's rich habitat.

My school building (places and people)

D0387,ER Electronic Resource

 Max Metcalf, Bill Diamond, Alyssa Mac.
My school, my responsibility Series - When children are going to school for the first time or to a new school, they are naturally curious and perhaps nervous about what they will encounter. This program gives them a glimpse into what a typical school building looks like, helping to prepare them for what they can expect. Children will learn the main places in the school building and the roles of the people who work there.

My school bus (safety and respect)

D0388,ER Electronic Resource
 PISA 2007 Film Ideas, Inc. [distributor
 Max Metcalf, Bill Diamond, Alyssa Mac.
My school, my responsibility Series - When children are going to school for the first time or to a new school, they may worry about many things that will be new to them. This program takes children for a ride on a typical school bus, helping to prepare them for what they can expect. Children learn how to stay safe on the bus and getting on and off the bus. They are introduced to the bus driver and learn that the driver is responsible for their safety, and they should respect and listen to the driver. The program also talks about the inside of the bus—the emergency door and riding with other students. Students are taught that they should not talk to strangers and what to do if a stranger will not leave them alone.

My school classroom

 Max Metcalf, Bill Diamond, Alyssa Mac.
My school, my responsibility Series - When children are going to school for the first time or to a new school, they may wonder what recess is like and what the schools playground will be like. This program gives children a tour of a typical school playground, helping to prepare them for what they can expect. Children learn what equipment a playground usually has, how they can be included in play, how to ask for a turn, how they can make sure others are included, and how to help their classmates. The program also talks about how it is ok to run on the playground, but there are still safety rules, and if you are unsure about anything, ask your teacher. As always, respect is emphasized—respect for the equipment and other people. Students learn about bullying and tattling.

 2008 Think TV
Our Ohio Series - Serpent Mound - Serpent Mound is a massive earthwork depicting an uncoiling serpent and is the largest and finest effigy mound in the United States. Spanning nearly 1,300 feet in length, it is thought to be constructed by the Fort Ancient culture more than 1,000 years ago. Today, it is a National Historic Landmark. The Learning Tree Farm - In April 1973, classroom teachers who were concerned about how "out of touch" their students were with the outdoors founded The Learning Tree Farm. It has been serving school children and their families in the Dayton/ Miami Valley area, growing from about 200 students in 1973 to more than 6,000 in 2006. Ask Pierre: Game Day Foods - Chef Pierre Wolfe gets a letter from a football watching party planner, prompting the question: What are some tricks to becoming a master of the grill? Wolfe shares some tips as well as some recipes with local produce. Jeff Gage Discovers: Great Lakes Brewing Company - Great Lakes Brewing Company is a principle-centered, environmentally respectful and socially conscious company committed to crafting fresh, flavorful, high-quality beer and food for the enjoyment of their customers. Gage talks to the owners about the rich history and samples some ale, but don't worry. He's not driving home.

Our Ohio Series - The October People - A full moon rises over an isolated farmhouse. A shriek in the distance can only mean one thing—it's All Hallows Eve in rural Ohio. Farm families are supplementing their income by repurposing their farms for special events. *Our Ohio* shows the frightful and financial side of turning a farm into a ghastly gallery of ghouls. *Lavender Farm* - Lavender is one versatile plant; it's used to promote healing, for culinary purposes, cosmetics, housekeeping and craft work. To learn more, *Our Ohio* visits Daybreak Lavender Farm, the first lavender farm in the state. Daybreak hosts a lavender festival each June and also has an online store. *Buffalo Farm* - David Uible travels to Russia each month for his publishing business. Cindy Cassell was working on her PhD in nutrition. They purchased a dairy farm, named it Vista Grand Ranch and wondered what to do with it. They made their decision: to raise animals associated with the Great Plains of the 1800s.

Our Ohio Series - Fossil Fuel Farm - Gas prices are painful for everyone, but it is especially difficult for farmers. From diesel to fertilizer, a modern farm runs on petroleum. Our Ohio looks at an average-sized farm and calculates how much the price of production goes for petroleum-based products. Fueled by the Farm: PK Biodiesel - An Ohio soybean farmer for 30 years, Jack Purdy recently expanded into the biodiesel business by installing his own biodiesel plant. The same barn that once housed livestock now produces B100, pure biodiesel from his soybeans. Full Circle Fuels - Sam Merrett, an Oberlin College graduate, has created Full Circle Fuels, a unique facility which converts cars to run on used vegetable oil from local restaurants. Food for Thought - Oberlin College and its dining services work hard to promote eating local, and the students can taste the difference. Our Ohio travels to the college to see how it is changing the way students gain the freshman 15.

Our Ohio Series - Lake Farmpark - Lake Farmpark is a family oriented science and cultural center devoted to agriculture, farming and country life. You can milk a cow, take a wagon ride and discover more than 50 breeds of farm animals up close. See border collies at work, discover solar and wind power and explore several theme gardens. Paul Bunyan Show - Sponsored by the Ohio Forestry Association, this annual event features international lumberjack competitions along with forestry industry research, technology and education workshops. Inventing flight - One hundred and five years ago, humans first took flight. It was the inventive, creative minds of two Ohio brothers that made it possible. We know their names, but what else can we learn from the Wright Brothers? We hear from Tom Crouch, from the Smithsonian Institution and author of The Bishop's Boys.

Our Ohio Series - House of Trash - Our Ohio visits a house made entirely of recycled materials -one of few and the only one in Ohio. The farmers who built it are pioneers in the idea of modern homesteading and being completely self-sufficient. The owners also raise organic chickens, llamas and vegetables. Wiebold Studio, Inc. - Since 1945 Wiebold Studio, Inc. has restored and repaired the art and antiques of homeowners, collectors and dealers. Wiebold conservators repair and restore oil paintings and fine art, ceramics, metalware, portrait miniatures and many other small historical objects and objects d'arte. Some of the company's clients include The White House, Yale University, the Taft Museum and the Cincinnati Art Museum. Marilou Suszko: Freshwater Farms - Marilou Suszko tours the largest indoor hatchery in the state and gives some tips on how to best prepare the many different kinds of fish raised at Freshwater Farms.

Our Ohio Series - Cleveland Surfers - These surfers aren't the typical beach boys. Surfing in Cleveland is gritty, difficult and not to mention, very cold. Our Ohio travels to Lake Erie to see how these guys do it. Glory Foods - Collard greens, sweet potatoes, black-eyed peas and rutabaga aren't traditional Ohio fare. But Glory Foods, in Columbus, has captured the flavor of traditional down home Southern cooking like no one else. Hershey Montessori School - This school has a farm where students are responsible for all the farm chores. The program is guided by Maria Montessori's vision of a farm-based community in which students experience practical roles that integrate and apply academic studies while building a greater connection to society and the world.

Our Ohio Series - Boyd's Crystal Art Glass - For four generations, the Boyd family has been practicing the ancient art of glassmaking. Beginning with Zack Boyd in 1901, glass-making secrets and formulas have been handed down from father to son. Boyd Glass still manufactures collectibles the old-fashioned way, with a man and a mold and not with an automated machine. Katie Laur: Music from the Hills of Home - Born into a musical family, Katie Laur has had a long career in bluegrass music. One of the first women in the United States to lead a bluegrass band, her music has taken her from the Kennedy Center all the way to Russia. Laur has a local radio show on WNKU called Music from the Hills of Home. Worthington Steel - Early in the 20th century, Ohio was a major producer of the nation's much-needed steel. Today, though, many of those famous foundries are no more. One survivor is Worthington Steel in Columbus. The steel made there finds its way into many agricultural machines also used in Ohio.

Our Ohio Series - Medina Ice Festival - Most folks throughout Ohio wouldn't find ice worth celebrating, but the small town of Medina has found a way to make the best of even a cold northeastern Ohio winter. The annual ice festival features winter at its best, complete with an ice sculpting contest. The Blue and the Gray - Civil War re-enactments provide a glimpse into the past. Re-enactments are a colorful history lesson for the audience and an avid hobby for the participants. For a closer look, Our Ohio volunteers for duty with the 1st Ohio Volunteer Cavalry Regiment. Marilou Suszko: Garlic - Marilou Suszko travels to Peace Angel Garlic Farm in Morrow to talk to Paul Zorn about the differences in flavor among the many varieties of garlic he grows. Then in the kitchen, Suszko shows how even cutting garlic in different ways will affect its flavor and intensity.

Our Ohio Series - Training Border Collies - With just a whistle or a whisper, a trainer can set a well-trained Border Collie into action. In a remarkable collaboration, it's as though the dog is an extension of the human. See how trainers are able to make this happen. Energy Farmers - Though these days it seems Ohio is pinning more of its energy hopes on corn and soybeans, Ohio has a rich oil and gas heritage that dates back to the birth of the industry. In fact, a century ago, when the Lima-Trenton field of northwestern Ohio was one of the largest U.S. producing provinces, Ohio was considered the "Middle East" of the oil and gas producing world. Our Ohio learns more about the past, present and future of Ohio oil. Growing Ohio - People who work the land have a special passion for what they do. Using selected interviews from three seasons of Our Ohio, the show creates a heartfelt portrait of what it means to be an Ohio farmer.

Series introduces students to real people doing real jobs.

Real life 101 : College Prep

D0393,ER Electronic Resource
PJSA 2008 Landmark Media Inc. [distributor]
Hosts: Shawn Royster, Danielle Smith, Joe Tattersall, Darcy Wood.

With college just ahead of them, our hosts visit with some people who help students prepare for this milestone. They get some helpful suggestions about applying to schools from a college counselor. Then meet a special tutor whose job is to help students ace those anticipated and sometimes dreaded SAT exams. Finally, we speak with a woman who gives writing tips for college application essays and those challenging classes to come.

The Rio Grande

D0394,ER Electronic Resource
PISA 2001 Film Ideas, Inc. [distributor]
Narrator, Bunnie Strassner.

Rivers of North America Series - The Rio Grande is the 3rd longest river in the United States and the 5th longest in North America. The Great River travels 1,900 miles through the states of Colorado, New Mexico and Texas, also bordering the country of Mexico, before finally emptying into the Gulf of Mexico. Along its route the Rio Grande, due to the movement of the earth's crust and volcanoes which developed 38 million years ago, is scattered with a litany of majestic canyons.

Stars

D0395,ER Electronic Resource
PISA 2004 Film Ideas, Inc. [distributor]
Narrator, Owen Thomas.

What's UP In Space? Series - How are stars formed, and what are they made of? How far away are the stars we see in the night sky? These are some of the questions answered in the program. Information about comets and shooting stars is also included in this program.

The Sun

D0396,ER Electronic Resource
PISA 2004 Film Ideas, Inc. [distributor]
Narrator, Owen Thomas.

What's UP In Space? Series - The sun not only shows students how the sun works, but it also reveals how important the sun is to sustaining life on this planet. An explanation of photosynthesis reveals to students how the sun gives us air and food in addition to light and warmth. Sun spots, storms and sun quakes are included in this exploration of our closest star.

Water for Life : An Educational Journey through Our Watershed Full Program

D0398,ER Electronic Resource
PISA 2008 Sandusky River Watershed Coalition
Narration: Tom Zirm.

Water for Life: Study of recreational use, water quality, history, and water resource management and monitoring, and conservation of the Sandusky River Watershed in northwest Ohio. Water as a resource is discussed. Several questions are posed for consideration on water as a natural resource. Human activities may negatively impact water supplies. Federal guidelines are in place for clean water quality. Statistics, graphs and maps on Sandusky River Watershed give information about the watershed. The Sandusky River Watershed has been designated a Scenic River and is administered

by the Ohio Department of Natural Resources Scenic River Program. The history of the watershed and recreational opportunities are outlined. Problems of the watershed include combined sewage overflow. Cities are upgrading sewer system. The agricultural community has done much to conserve the land. The Sandusky River Watershed Coalition sponsors many programs to maintain the integrity of the watershed.
